

Voice Based Concept Understanding Analyser

Student: Deepika

Concept: Machine Learning

Transcript

Machine Learning is a branch of AI that enables computers to learn from data without being explicitly programmed. It uses algorithms to identify patterns in data and make predictions or decisions. ML is used in recommendation systems, spam email detection, image recognition and self-driving cars.

Evaluation Results

Understanding Score : 83.02%

Understanding Level : ■ Good Understanding

Fluency Score : 100/100

Speech Rate : 102.0 WPM

Duration : 26.47 sec

Filler Words : 0

Overall Score : 91.51%

AI Feedback

- Good explanation, but some concepts can be expanded.
- No filler words detected.
- Your speaking speed is appropriate.
